EDUCATION
New York Institute of Technology, Old Westbury, NY
B.S. in Computer Science December 2024 – GPA: 3.8
Relevant Course Work: Multi-Media Web Development, Mobile App Development, Database Management, Internet Programming
Recipient of the President's Scholarship and the Judy and Phil Fasano Scholarship
Member of Phi Eta Sigma Honor Society

EXPERIENCE
HTML SPECIALIST • NEW YORK INSTITUTE OF TECHNOLOGY   **AUGUST 2024 – PRESENT**
- Utilization of WordPress blocks to update page layout for the new school website
- Checking over other students' work and published pages after the launch for errors to debug the website (broken links, 404 errors, missing pages, etc.)
- Designing graphics for the school's social media pages
- Audited the school's social media - including comparison to other school's social media, post-performance, theming, analysis, and possible social media strategies

FRONT-END WORDPRESS DEVELOPER • ESPORTS RESEARCH NETWORK   **FEBRUARY – MARCH 2024**
- Tasked with a redesign of the current website, while incorporating the same theme and provided media
- Employing WordPress and Figma for implementation and design, respectively

SALES ASSOCIATE • PETSMART INC.   **AUGUST 2021 - PRESENT**
- Performing the expected base duties of a cashier – checkouts, returns, balancing the registers
- Handling around 200 customers and - on average - $3,000 worth of transactions per shift
- Answer phone calls, answer any questions customers have, fulfill online orders, curbside pickups, and stocking shelves

SKILLS:
Languages: Java, HTML, CSS, JavaScript, SQL, PHP
WordPress, React.js, Figma, Graphic Design

PROJECTS:
Esports Research Website: Uses WordPress, Divi Theme Builder
- Published: esportsresearch.net
- Worked in collaboration with The Esports Research Network to give their website a more modern look and feel, while still staying true to the aesthetic of their previous website
- One of the more important goals of the redesign was also to bring attention to their upcoming 2024 ERNC conference, so the site was also redesigned with that aspect in mind

Portfolio Website: Uses React.js, HTML, and Tailwind.
- Published: kaitlynandor.netlify.app
- Personal website created to showcase my skillset and projects
- Currently in the development process
